Dear Client,

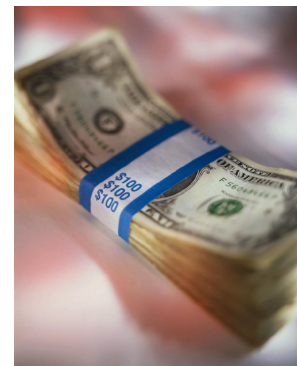

Klink & Co., Inc. a global investigative and risk consulting firm, has been providing investigative support to counsel in FINRA and AAA arbitration cases for over eight years. We have helped our client's win their cases and/or limit the arbitration awards through our investigative discovery, saving our client's millions of dollars.

Winning Arbitration Cases

Investigative Support in FINRA or AAA Arbitration wins cases. You need Klink & Co. when you don't have discovery!

If you are representing a defendant in an arbitration case or broker-dealer dispute, often the stakes are high.

For example, under FINRA, claims of ruined lives, erased fortunes and lost retirement savings are difficult to defend. The restrictive nature of arbitration where only limited discovery is permitted makes these cases tough to overcome.

We can do for you what can't be done in Arbitration: **Find the Facts!**

How do we get results?

- By getting facts to win the case. In one arbitration we found that the claimants had lied about their assets and their background
- In another case we found evidence of criminal conduct and fraud
- By revealing the true extent of the losses suffered by the claimant
- By showing the "sophistication" of the claimant
- By obtaining strategic background information and facts to cause early settlement of matters
- By developing strategic pre-hearing information necessary to impeach and cross-examine witnesses
- By gathering and analyzing information and facts used to cross-examine deponents or experts

Our senior research analysts, computer and accounting experts, and former
